SEASONAL HOURS

APRIL – MAY

Monday thru Friday – 8 a.m. – 5 p.m.
Saturday – 9 a.m. – 4 p.m. / Sunday – 9 a.m. – noon

JUNE – OCTOBER

Monday thru Friday – 8 a.m. – 5 p.m.
Saturday – 9 a.m. – 1 p.m. / Closed Sunday

NOVEMBER 1ST – 15TH

Monday thru Friday – 8 a.m. – 12 noon

DELIVERY CHARGES - WITHIN A 15 MILE RADIUS

MULCH & PRODUCTS SOLD BY THE CUBIC YARD

1–4 yards \$75, 5–8 yards \$100, 9–15 yards \$130

ALL PRODUCTS SOLD BY THE TON

1 – 3 tons - \$75.00
4 – 9 tons - \$100.00
10 – 13 tons - \$175.00
14 – 18 tons - \$200.00

Need it “tailgate spread” – add \$50.00

PALLETIZED STONE DELIVERY

1 – 6 Pallets - \$250

BEYOND THE 15 MILE RADIUS

15.1 – 20 miles = 1.5 X the delivery charge

20.1 – 25 miles = 2 X the delivery charge

HOW MUCH PRODUCT DO I NEED?

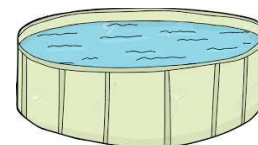

A cubic yard covers approx. 100 sq. ft. at 3” depth

Length X Width = _____ ÷ 27 = _____ ÷ 12 X # of inches deep = the cubic yards needed

PUTTING PRODUCT AROUND YOUR POOL?

Diameter X 3.14 = linear feet X width = square feet

WHAT IS COMPOST?

Compost is an organic matter that has the unique ability to improve the characteristics of soil and has many benefits and uses.

Compost:

- adds a slow release of nutrients
- adds beneficial soil organisms, reducing the need to use chemical pesticides
- aids in suppressing plant disease pathogens, reducing the need to use chemical fertilizers
- increases moisture retention, so you don't need to water gardens as frequently
- helps improve soil structure, porosity, and density
- makes any soil easier to work and cultivate

MUSHROOM COMPOST

Mushroom compost is NOT made from composting actual mushrooms. Rather, it is the spent material mushrooms are grown in. Made up of - Gypsum, manure and straw, mushroom compost's pH is about 6.6 nearly neutral. Mushroom Compost can be used as mulch on top of the ground, around plants and also as a soil additive to add tilth to soil. It is a wonder for holding moisture and works well to break down clay soils. We screen our mushroom compost with a ½" screen to removed large clumps.

COMPOSTED FOOD AND LAWN DEBRIS MANUFACTURED LOCALLY

Screened to 1/8 inch and unblended, this compost does not contain any other soil amendments. The Agency manufactures compost from wood chips and food scraps from their Partners in Composting Program.

SWEET PEET®

Sweet Peet® is the premium organic mulch for flower and vegetable gardens. Sweet Peet® buffers both acid and alkaline (low and High pH) soils by helping to maintain the desired gardening Sweet Spot. ... Like most mulches, Sweet Peet® suppresses weeds by smothering the soil.

It is not recommended to plant seeds directly into compost because it holds so much moisture and can waterlog the seeds.

PIPE & FITTINGS

White / Solid – 4” x 10’	\$24.05
White / Perforated – 4” x 10’	\$24.05
